## SUMMARY

Result-oriented Flutter Developer with over 2.5 years of experience (since 2023) building production-ready mobile and web applications. Expert in Dart and the Flutter framework, with a proven track record of delivering high-performance apps to the Google Play Store. Skilled in architecting scalable solutions using Bloc, Provider, and GetX, and integrating complex REST APIs, Supabase and Firebase services. A collaborative team player dedicated to writing clean, maintainable code in fast-paced environments.

## CORE SKILLS

- **Frameworks & Languages :** Flutter, Dart, Java
- **State Management:** GetX, Provider, Bloc
- **Architecture:** Object-Oriented Programming (OOP), MVC, MVVM, Clean Architecture
- **Backend & APIs:** RESTful APIs, GraphQL, WebSockets, Laravel (CRUD API Development)
- **Firebase:** Authentication, Firestore, Realtime Database, Cloud Storage
- **Supabase:** Authentication, Database, Edge Functions , Storage
- **Integrations:** Google Maps API, Stripe, AdMob, Push Notifications, Deep Linking
- **Database:** MySQL (XAMPP), Firebase, Supabase (PostgreSQL)
- **Internationalization:** Flutter Localization (l10n)
- **CI/CD:** Automated Flutter build & deployment using GitHub Actions and Google Play Console
- **Deployment:** Google Play Store, Apple App Store, Release Management
- **Version Control:** Git, GitHub, GitFlow

## KEY PROJECTS

**GFCM Trading App:** Real-time trading platform featuring live charts, WebSockets, and REST APIs for seamless order placement and portfolio tracking.

**Food Delivery System:** Multi-role ecosystem (**User, Delivery, Admin**) with real-time tracking and comprehensive order management.

**Snooker Management System:** Web app for managing tournaments, players, and schedules with role-based access control. Includes **Admin Panel** (manage roles & approvals), **Manager & Operator** (handle allocations & sales).

- Live Demo

**Ground Booking System:** Dual-app sports booking solution for **users and partners**, integrated with Firebase and REST APIs.

- Partner App | User App

**LoveConnection:** Matrimonial app utilizing GetX and RESTful APIs for preference-based matching and social connectivity.

- Play Store

**WedPlan360:** Wedding planning tool featuring expense tracking, guest management, and automated email/push notification reminders.

**SafeTap:** SafeTap is a safety-focused app offering real-time alerts, live location tracking, and emergency notifications, built with Flutter, BLoC, Supabase, and Firebase.

## EXPERIENCE

**Mar 2025 - PRESENT**

**FLUTTER DEVELOPER — FUNTASH TECHNOLOGIES ISLAMABAD, PAKISTAN**

- Developed and maintained production-ready Flutter applications with real-time features.
- Integrated REST APIs and WebSockets for live updates and optimized performance.
- Implemented scalable state management using GetX and Provider.
- Collaborated with backend teams for clean API architecture and improved UX.

**Dec 2023 - Mar 2025**

**FLUTTER DEVELOPER — TECHANION PVT LTD ISLAMABAD, PAKISTAN**

- Contributed to live applications published on Play Store.
- Integrated REST APIs and improved application responsiveness.
- Assisted in debugging and performance optimization.

**Sep 2023 – Nov 2023**

**FLUTTER DEVELOPER INTERN — ITSOLERA PVT LTD ISLAMABAD, PAKISTAN**

- Assisted in Flutter UI development and API integration.
- Worked with Firebase Authentication and Firestore.

## CERTIFICATIONS

- **Web Engineering Advanced (Laravel)** — Hazza Institute of Technology
- **Cyber Security** — Hazza Institute of Technology
- **Soft And Communication Skills** — Digi Skill

## EDUCATION

2019 – 2023 Bachelor of **Computer Science (BScs) FUUAST**

2017 – 2018 Intermediate (ICS) – FBISE

2016 – 2017 Matriculation (CS) – FBISE

## PERSONAL INFORMATION

Father Name: Matloob Hussain
Date of Birth: 16-04-1998
Marital Status: Single
Nationality: Pakistani
Language: Urdu, English
Passport #: BJ0400561(Issue 07 Jan 2025) (Expiry 06 Jan 2030)
